WAREHOUSE MANAGEMENT

Handheld WMS
for Fishbowl

BUILT FOR FISHBOWL

BARCODE SCANNING

REAL-TIME INVENTORY

Streamline your warehouse operations.

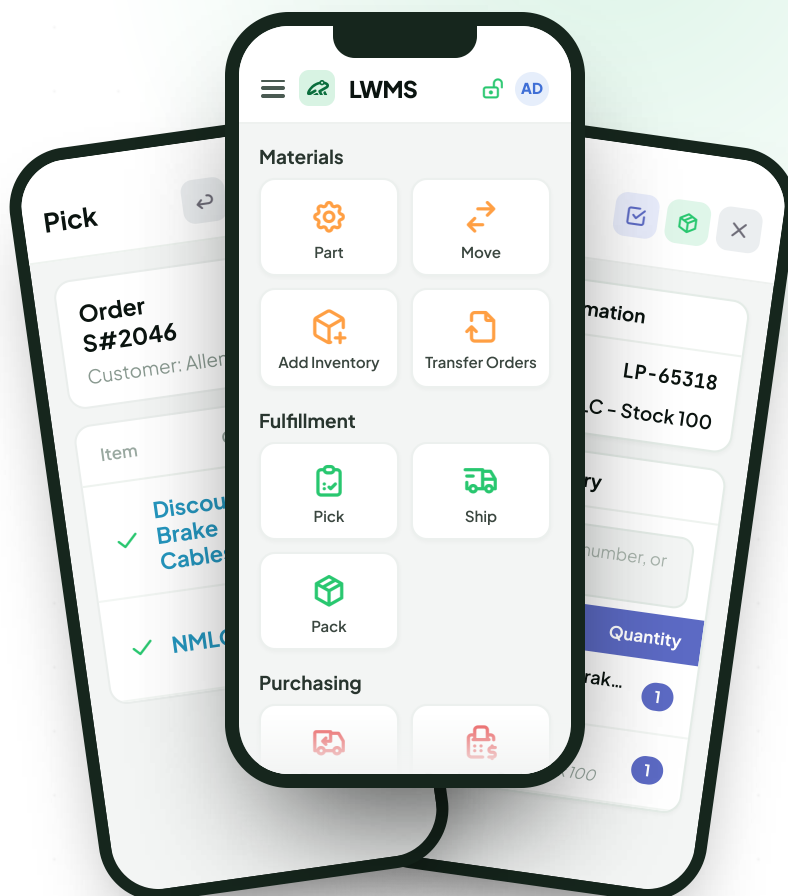

Access every warehouse transaction from anywhere — backed by advanced features that improve accuracy and operational efficiency across the floor.

SPOTLIGHT • PALLET MANAGEMENT

Full control of single & mixed-product pallets.

Your team takes command of every pallet — making inventory handling faster and more intuitive from receiving to shipment.

- ✓ Create and label pallets with ease.
- ✓ Move items between pallets effortlessly.
- ✓ Transfer entire pallets to new warehouse locations.
- ✓ Check pallet contents and inventory levels instantly.
- ✓ Pick and ship full pallets in just one step.

The complete feature set
